

## \* **Milt Petersen - Board Candidate**

I worked for 35 years as a Metallurgical Engineer at the old Inland Steel in East Chicago and retired in 1997. I started my real estate investing career in the early 80's to have a second source of income just in case when the local steel mills started cutting back operations. Rehabbed houses on a part-time basis for rent or flip in South Hammond for about 10 years. Bought a 15 unit apartment near downtown Griffith in the mid 90's. After retirement from Inland, purchased land in Merrillville and developed Brookstone Condominium complex. Was able to complete 5 buildings and a clubhouse before recession hit. Have consolidated my operations at Brookstone for the last 8 years as a Realtor, rental agent,

investor, insurance public adjuster, and treasurer of the NICIA. As I've stated many times, NICIA is a terrific organization for all real estate interested people at any experience level, to learn and profit from the shared experiences of the group. I ask for your vote as a Board member to continue giving back to  
*the organization.*
